Overview

The SCN direct certification Web download tool provides access to SNP sponsors for the purpose of downloading the direct certification file through a secure Web portal. SNP sponsors will use the direct certification to determine which students are eligible for free meal eligibility. The direct certification file will be updated on a monthly basis. The tool is available to private, parochial and public schools. Access to the tool will be granted through the Division of School and Community Nutrition's (SCN) schools branch.

User ID Registration

All users must complete the user self-registration form for access to the tool. Only the Food Service Director and their appointed designee may have access to the system. The additional designated user users must be reviewed, approved and submitted by the Food Service Director before access will be granted. The direct certification contains sensitive and confidential information and thus SCN will limit access. The user registration form may be obtained by contacting SCN's Cindy McIntosh (lucinda.mcintosh@education.ky.gov).

Note: Users who leave their position within food service should notify SCN, who will remove their user ID from the system.

Data Access

Users have been assigned county level direct certification data based on their district/diocese county location. Some districts have attendance areas that stretch across county lines. Additional counties will be granted based on a review by SCN. Districts may request access to additional counties through an email to Cindy McIntosh. The request should include justification for the additional counties. SCN will review and grant approval based on a valid, demonstrated need.

Data Confidentiality

The direct certification data, as it contains sensitive and confidential information, should be stored in a secure location on your network. Keep all hard copies of any printouts in a locked storage area.

Security

User IDs and passwords should not be shared with other users. The passwords have no expiration date attached to them. Forgotten or misplaced user IDs or passwords can be retrieved by following the help process on the user registration site (<http://apps.kde.state.ky.us/login/>) or by contacting the KETS Service Desk.

Help

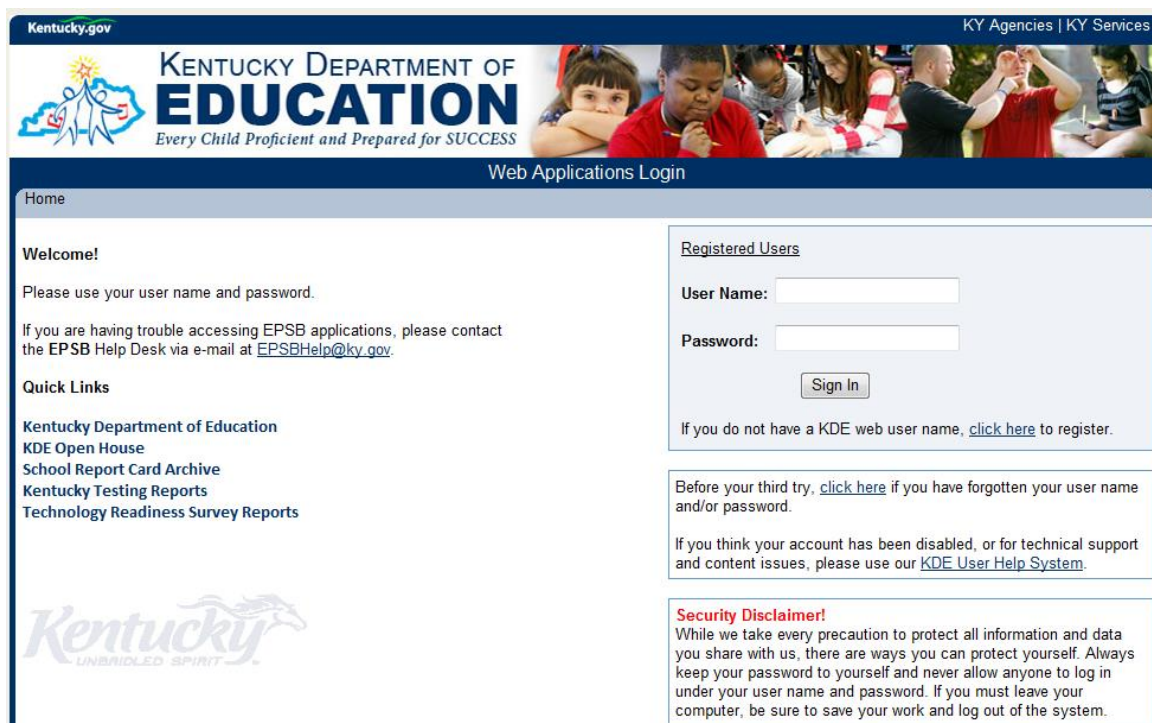

Users who need their password reset should contact the KIDS Service Desk at (502) 564-2002.

Navigation

The user should have followed the self-registration process to obtain a user ID and password. An email from SCN will confirm that the user has been set up in the tool.

Direct Certification Steps

1. Navigate to the SCN Direct Certification Web Download tool: <http://apps.kde.state.ky.us/login/>

The screenshot shows the login page for the Kentucky Department of Education's web applications. The header includes the Kentucky.gov logo and the text "KENTUCKY DEPARTMENT OF EDUCATION Every Child Proficient and Prepared for SUCCESS". The page title is "Web Applications Login". On the left, there is a "Welcome!" message and a "Quick Links" section with links to "Kentucky Department of Education", "KDE Open House", "School Report Card Archive", "Kentucky Testing Reports", and "Technology Readiness Survey Reports". On the right, there is a "Registered Users" login section with fields for "User Name:" and "Password:", a "Sign In" button, and a link to "click here" to register. Below the login section, there is a "Security Disclaimer!" box with text about protecting information and data.

2. Enter in your user ID and password.
3. Click on the “SCN Direct Certification” link.

Tip! Users should always have their current email address on file under 'User Info Editor' as automatic email notifications are sent from the system to all users once a new DC file has been posted.

The download screen shall appear. A description of the key information follows:

County information contained in download file

User name

Most current file update

COUNTY	KTAP - Current Files	Foster - Current Files	KTAP - History Files	Foster - History Files
KNOX	KTAP/SNAP/Medicaid	Foster	KTAP/SNAP/Medicaid	Foster

- Logged in as** – your current username
- Logout** – to log out of the system
- File are up to date as of** – date the files were last updated
- Current Files** – the current month’s KTAP/SNAP/Medicaid and foster care recipients for your assigned counties
- History Files** – a unique list of all KTAP/SNAP/Medicaid and foster care recipients from your assigned counties from July 1st to the current month
- County Name** – the assigned counties for your user ID
- {Current File}** – the hyperlink to download the current direct certification file in .csv format
- {History File}** – the hyperlink to download the historical direct certification file in .csv format
- Contact Us/Help** – access for assistance from the KETS Service Desk

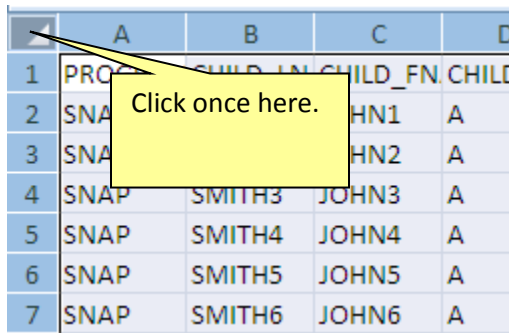

KTAP/SNAP/Medicaid – a list of all KTAP/SNAP/Medicaid participants for which DC eligibility can be extended to other members in the household.

Foster - a list of all active foster children in Kentucky; DC eligibility **cannot** be extended to other members in the household

- Users will click on the “Current File” link and then click “Open”:

- The file will automatically open in Excel. Automatically size the columns by clicking on the upper left hand portion of the worksheet area.

	A	B	C	D
1	PRO	CHILD	IN	CHILD_FN
2	SNAP		HN1	A
3	SNAP		HN2	A
4	SNAP	SMITH3	JOHN3	A
5	SNAP	SMITH4	JOHN4	A
6	SNAP	SMITH5	JOHN5	A
7	SNAP	SMITH6	JOHN6	A

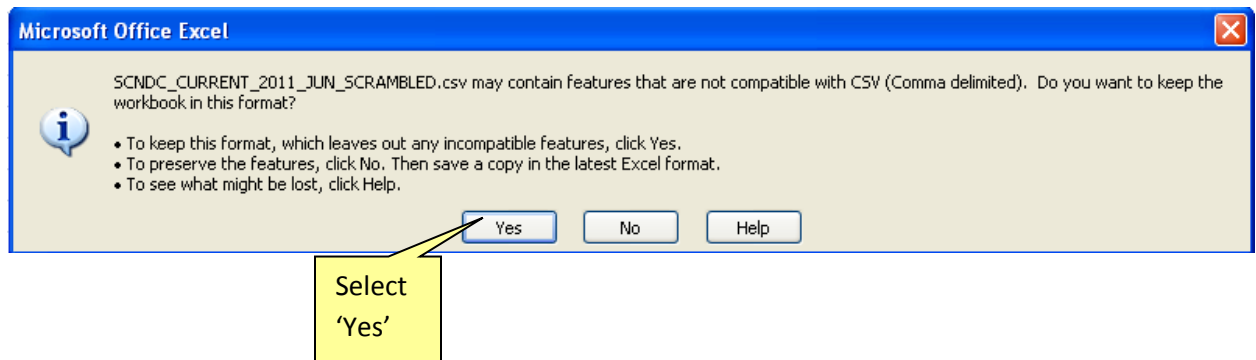

- a. Place your cursor until it appears as a double arrow then double-click.

6. The data has been placed in a logical order. The definitions of the fields follow in the appendix.

Following below are comments on the file layout:

- a. The county name appears in the final column. You should verify this contains the counties you are interested in.
 - b. The guardian SSN contains only the last 4 digits to protect privacy.
 - c. The Zip + 4 and the guardian SSN will omit any leading zeroes from displaying, which is an Excel issue. However, the data does appear in the file itself.
7. Save the file format in the original .csv type. When Excel prompts you to save the file in a .csv format, select 'Yes'.

8. Return to the tool. Click on "Logout" to exit the system.

Importing the Direct Certification File – KTAP/SNAP/Medicaid ONLY

School districts can import the file using either their POS system or Infinite Campus. It is their choice on which system best suits their needs. **Note:** All of the necessary software to import the direct certification file into Infinite Campus is available to districts at no charge.

Regardless of which system is chosen, the POS system and Infinite Campus should be kept in synch with each other. The FRAM WebEx presentation provides detailed instructions on how to accomplish that.

Direct Certification Template

Infinite Campus placed a direct certification mapping template on all district sites in July 2011. The template will be named “SCN Direct Certification Import” and will have all the settings established for steps 5 & 7 below.

Data Import into Infinite Campus

1. Log in to Infinite Campus. If you do not have a user ID contact your district IT administrator.

Important!: Districts must select the current school year from the ‘School Year’ dropdown menu when importing their DC file.

2. Ensure the correct year and other information is shown on the top menu bar for the current year: in this example, the ‘14-15 school year’ is selected.

Year 14-15

3. Navigate to FRAM>Eligibility Import Wizard. Choose the import mapping.

Eligibility Import Wizard

This wizard will guide you through mapping and importing data into the database.

Step 1. Select "New Import Mapping" to create a new import or select a saved mapping.

Saved Import Mappings

- Direct Certification 2009-2010
- Direct Certification Food Stamp 2011
- Direct Certification FS 09-10
- Direct Certification KTAP 2011
- SCN Direct Certification Import
- SCN Direct Certification Import Template**
- Test Foster Care Import
- test import mapping

Edit **Delete** **New Import Mapping** **New File Import**

4. Click “Edit”.
5. Complete the fields below as follows:

Eligibility Import Wizard

Step 2. Name the file, enter a selection for each option and upload a file to continue.

***Name**

***School Year**
 Ensure the current school year is selected here.

***What is the file type?**
 SSID was chosen since it usually results in a higher number of data matches since the inception of the COT SSID matching algorithm.

***Which field(s) in the data file will map to student identifiers?**

***Is this a Direct Certification file?**
☒ Yes ☐ No

***Does file include headers?**
☒ Yes ☐ No

***Browse and select import file.**
 Select the DC file here.

6. Once you have completed the fields, you will then click **'Upload & Continue'**.
7. In this next screen you will define the student ID field. Input a '7' into the field as below:

Eligibility Import Wizard

Name SCN Direct Certification Import Template **File Location** D:\CampusDocumentStore\batchReports\batchQueue\staging_scramble\35124\2015-08-17-08-58-15\SCNDC_

Raw Data File

1	2	3	4	5
PROGRAM	CHILD_LNAME	CHILD_FNAME	CHILD_MI	CHILD_SS

Mapped Data Field(s)

StateID

Step 3. Select mapping. Indicate the position of the data field(s) from the imported Raw Data File then select "Map Field(s)". This mapping will be used to match the data in the import file to student identifiers existing in the database. Select "Next" to continue.

Name	Seq in Data File	Map to Data Field	Strip Leading Zeros
StateID	7	student.stateID	<input type="checkbox"/>

8. Click **'Map Field'**.

9. Scroll down and click **'Next'**.
10. Key in the appropriate Start and End dates:
 - a. The 'Start Date' will be when the DC data is imported into Infinite Campus.
 - b. The 'End Date' will be the last day of June within the school year; in this example for school year 2014-2015 the date will be 6/30/2015.

Eligibility Import Wizard

Name: SCN Direct Certification Import Template File Location: D:\CampusDocumentStore\batchReports\batchQueue\staging_scramble\35124\2015-08-17-08-58-15\SCNDC_H

Raw Data File

1	2	3	4	5
PROGRAM	CHILD_LNAME	CHILD_FNAME	CHILD_MI	CHILD_SS

Import Data Field(s)

DirectType

Step 4. Select "Yes" to set the same Direct Certified Type value for all students on the file. Select "No" to map a unique value for each student on the file. Review mapped fields in the Import Data Field(s) section above. Select "Next" to continue.

Eligibility Free

* Is the Direct Certified Type the same value for all students? ☐ Yes ☒ No

Seq in Data File: 1 Set Value

* Eligibility Start Date

* Eligibility End Date

06/30/2015

11. With regards to "Is the Direct Certified Type the same value for all students?" select **'No'**. (For importing the DC Foster file you can mark 'Yes' – and select Foster for the selection.)
12. Enter a '1' for the sequence in the data file.
13. Click **'Set Value'**.

Field Map x

Data File Direct Type	Campus Direct Type
SNAP	SNAP
KTAP	TANF
MEDICAID	Medicaid

Cancel Save

14. Enter in the values as shown.
15. Enter in today's date for the "Eligibility Start Date"
16. Click **'Save'**.
17. Scroll down and click **'Next'**.
18. Confirm the following information:

Eligibility Import Wizard

Name SCN Direct Certification Import Template **File Location** D:\CampusDocumentStore\batchReports\batchQueue\staging_scramble\35124\2015-08-17-08-58-15\SCNDC_

Raw Data File **Import Data Field(s)**

1	2	3	4	5
PROGRAM	CHILD_LNAME	CHILD_FNAME	CHILD_MI	CHILD_SS

DirectType

Values entered for fields shown will be the same for all students when imported.

Eligibility	StartDate	EndDate
Free	08/17/2014	06/30/2015

Verify your information is correct.

Mark the "Exclude Applications" checkbox to exclude applications from the Verification process. This can be used for applications that were approved prior to receiving the Direct Certification file.

Exclude Applications ☐

Mark the "Extend Direct Certification Status to Additional Students in Household" checkbox to add a Free eligibility for SNAP, TANF or FDIPIR Direct Certified types to students in the same household who are not included in the Direct Certification file. In FRAM Preferences an option is also available to extend the Medicaid Direct Certified Type.

Note: If another household has the same address as a student on the Direct Certification file, students in the other household will also receive Direct Certification Eligibility. Test the import file to view the list of additional students who will be extended eligibility before importing into the database.

Extend Direct Certification Status to Additional Students in Household ☐

Should only be marked for SNAP/KTAP/Medicaid file

You may Test or Import your file. Infinite Campus recommends testing before importing.

Include Updated Records Detail on report ☐

Report Format ☒ PDF Report ☐ Comma Separated Values (CSV)

Batch Import Options ☒ Test ☐ Import

Previous Test Import Batch Test

Important!: Review the information to ensure it is correct, especially the start/end dates. Records will have to be manually corrected for each student in the event of any errors or through a Campus support ticket.

- a. Extend direct certification status to additional students within the household by checking the checkbox for the DC download file of KTAP/SNAP/Medicaid recipients.
 - b. It is recommended to include updated records detail on the report.
19. Click **'Test'**.
 20. Review the test report (see example below).
 21. Finally, if everything appears correct, then click **'Import'**.

Tip!: Larger districts of >3,000 students should consider using the Batch Import Option to import large batch files. More information on this option is available in the Infinite Campus – Eligibility Import Guide.

22. Review the report.

Kentucky State Generated on 11/05/2011 08:53:53 PM Page 1 of 1	Eligibility Import Report
---	---------------------------

Summary

New	Ended	Removed	Existing	Errors/Warnings
5	3	0	5	5

The Eligibility Import Report from IC provides a summary description of the import results. Focus on 'Errors/Warnings'.

Error/Warning

ERROR 2004 - Multiple matches found for Student SSN [REDACTED] (2 matches).

This shows duplicate students were located in Campus. Please run the Duplicate Student Search Report in IC; submit a support ticket in Campus to have this situation corrected.

ERROR 1028 - SSN [REDACTED] not found

The SSN (or SSID) were not matched in Campus. This may be because the:

- 1) SSN is incorrect in the DC import file or Campus; or
- 2) the child is not enrolled in your district/diocese

Tip!: More matches will be found if do a *second* DC import based on SSN. Simply change the dropdown value on the first screen to SSN and then enter a value of **5** on the second screen for sequence in data file: all other settings remain the same.

Private/Parochial Schools: To the extent possible all public school students have been identified with KDE's State Student Identifier (SSID) on the DC file. Outside of a few public school students who are transferring in to your system, nearly all of your potential DC students will not have an SSID assigned to them. Thus, you can either filter out those students with an SSID or sort the file to only view those without an SSID. This is helpful if you intend to manually match the DC list to your POS student roster.

Notes on Infinite Campus Direct Certification Import Process

- **Continuation of Direct Certification Status:** Students who appear on a previous direct certification file will not be removed or end dated if they do not appear on subsequent direct certification files.
 - Example: Mary Jones, a student in your school, appears on the July direct certification file but does not appear on the August direct certification file. Mary's direct certification and free meal status will remain once the August direct certification file is imported.
- **Missing SSIDs:** Students who do not have an SSID on the direct certification file will not be imported. Districts may want to scan through students with missing SSIDs to see if any of the children noted are in their district. It may be helpful to either sort the Excel file by SSID or apply a filter to the SSID field, selecting only blank records.

Frequently Asked Questions

What is the purpose of the 'History' DC file?

The DC 'History' file contains a unique list of all students who have been on a DC file during the school year. The 'most recent month' field displays when the student was last on the file. It is useful for the following reasons:

- **Auditing** – SCN can pull the DC file to compare your DC identified students against a master list
- **Re-Import** – If you neglected to download a DC file in a particular month this will help you get caught up. Also, districts are encouraged to import the DC History file prior to reporting their April DC counts in CNIPS since students may have been missed as DC. Transferring students, new students, kindergartners, etc. may have been missed as DC due timing: your DC import occurred prior to them enrolling, their SSN was incorrect but since has been fixed, etc.

How often should I update my POS/IC with the DC information?

Sponsors should update their student information on a monthly basis.

How often will the foster child data be updated?

The file will be updated on a monthly basis.

Why are out-of-state foster children appearing on our file?

These are children for whom 1) CHFS does not have an address yet in their system; 2) the child is placed in an out-of-state placement. In either instance the child may be attending your school. SCN will monitor this to determine the value of including out-of-state students on every DC download list.

Why is the foster child DC list a separate file?

Direct certification cannot be extended to other members in the household. Thus, a separate file had to be created.

Why is the guardian information missing for foster children?

CHFS could not provide us that information on the file.

I have foster children that are not on this file.

Some foster children may be placed voluntarily with a relative or other type living situation---are not wards of the state. However, due to the transient nature of foster care, some foster children under care of the state may not appear on your list until a later month until after their foster care location has been updated.

What if the foster child is already marked as DC?

You won't need to do anything for this student since they are already noted as being DC.

Many of our students live in another county but attend our school. Can I obtain that county's DC list?

The SCN schools branch manager reviews and determines those type requests. Please send an email to Cindy McIntosh (lucinda.mcintosh@education.ky.gov) to request access to more than one county.

I'm a new food service director and need access to the DC file.

Please contact Cindy McIntosh (lucinda.mcintosh@education.ky.gov).

I've lost my user ID/password.

Please contact the KIDS Service Desk at (502) 564-2002.

Which student identifier results in more data matches – SSN or SSID?

SSID. However, see the note below.

What if I want to maximize the number of DC matches?

Match your student roster on both SSN and SSID. This will entail creating a separate data mapping, one for each student identifier, and running the DC import two times – one for each data mapping.

What if I am only able to use SSID (or SSN) to match against my student roster?

- **Only SSN** – Filter the DC file in Excel based on blank SSNs. Look for any students with SSIDs. These are potential matches to your student roster.
- **Only SSID** - Filter the DC file in Excel based on blank SSIDs. Locate any additional students who may be on your student roster.

I forgot to download a monthly DC file.

Download the DC history file and import that into IC or your POS. This will bring you up to date to the current calendar month.

What is new with the addition of Medicaid recipients?

As part of a demonstration project with the USDA, Medicaid DC recipients are now included on the DC download file. Per CHFS, a single case is assigned if a family receives both SNAP/KTAP and Medicaid. Thus, you are receiving an unduplicated file of KTAP/SNAP/Medicaid recipients.

With Medicaid DC can eligibility be extended to other members in the household?

Yes, this is the same as with KTAP/SNAP.

Resources

Several resources are available to districts for assistance.

Here is a list of suggested resources.

Infinite Campus

- Campus Community
 - <https://id.infinitecampus.com>
 - Resource guides, forums
- WebEx Sessions
 - <http://icu.infinitecampus.com>
 - FR 1113: Free & Reduced Data Management
 - FR 1126: FRAM Eligibility Import Wizard
 - FR 1116: Free/Reduced Data Management

SCN

- Recorded FRAM WebEx session
 - <http://tinyurl.com/FRAMWebEx>

For policy questions please contact Cindy McIntosh (lucinda.mcintosh@education.ky.gov).

Any questions on the SCN Direct Certification Web Download tool or general questions on Campus please contact Brad Blunt (brad.blunt@education.ky.gov).

Appendix

Direct Certification Fields – KTAP/SNAP

Field	Description
PROGRAM	SNAP, KTAP or Medicaid public assistance programs
CHILD_LNAME	Child's last name
CHILD_FNAME	Child's first name
CHILD_MI	Child's middle initial
CHILD_SSN	Child's SSN
CHILD_DOB	Child's date of birth
CHILD_SSID	Child's State Student Identifier
GUARD_FNAME	Guardian's first name
GUARD_MI	Guardian's middle initial
GUARD_LNAME	Guardian's last name
GUARD_SSN_LAST4	Guardian's last 4 digits of SSN
ADR_LINE1	Address line 1
ADR_LINE2	Address line 2
ADR_CITY	City
ADR_STATE	State
ADR_ZIP_5	Zip code
ADR_ZIP_4	4 digit zip code (if available)
PHONE	Household phone number
MOST_RECENT_MTH*	Most recent month child appears on direct certification file
COUNTY	County of direct certification record

*History file only

Direct Certification Fields – Foster

Field	Description
CHILD_LNAME	Child's last name
CHILD_FNAME	Child's first name
CHILD_MI	Child's middle initial
CHILD_SSN	Child's SSN
CHILD_DOB	Child's date of birth
CHILD_SSID	Child's State Student Identifier
ADR_LINE1	Address line 1
ADR_LINE2	Address line 2
ADR_CITY	City
ADR_STATE	State
ADR_ZIP_5	Zip code
ADR_ZIP_4	4 digit zip code (if available)
PHONE	Household phone number
MOST_RECENT_MTH*	Most recent month child appears on direct certification file
COUNTY	County of direct certification record

*History file only

Glossary

Title	Definition
Campus Community	Location of support documents, videos and other tools to assist in learning Infinite Campus
Categorically Eligible	Automatic eligibility for free meal status based on participation in mean tested program (SNAP, KTAP, Head Start) or the student's status (migrant, runaway, or homeless)
CHFS	Cabinet for Health and Family Services: administers KTAP and SNAP programs; provides data extract files of KTAP and SNAP recipients (including both parent and their children) to KIDS in a text delimited format; also provides current list of foster child data for use in direct certification
Direct Certification	Process to determine a student's eligibility for free meal status; any KTAP or SNAP recipients are automatically designated with a free meal status
FRAM	Free and Reduced Application Module: data module in Infinite Campus, Kentucky's Student Information System, which has tools to manage student meal status eligibility, including a direct certification data import tool
FSD	Food Service Director
Infinite Campus	Vendor that provides Kentucky's Student Information Services; web-based interface to track attendance, grades, student enrollment and other key information
KIDS	Office of Knowledge, Information and Data Services; Parses the CHFS data extract files to county-based data files and produces the data CDs for SCN; the data CD contains both KTAP and SNAP data files for each county
KSIS	Kentucky Student Information System: web-based system to track grades, attendance, student enrollment and other key information; main data repository for all student tracking information
KSIS & More	Monthly KSIS newsletter produced by the Office of Knowledge, Information and Data Services
KTAP	Kentucky Transitional Assistance Program: provides cash assistance to needy families (formerly known as public aid)
Mapping	Used for data import process; defines the location of each field in a data file by column number.
Medicaid	Provides health care for low-income families
NSLP	National School Lunch Program: federally funded program designed to provide nutritious meals in a school or institutional setting
POS System	Point of Sale/Point of Service: school cafeteria's system for processing students' meal cards; several different systems are used by Kentucky schools
SCN	School and Community Nutrition: administers NSLP program using federal funds; responsible for program monitoring and compliance by NSLP sponsors
SNAP	Supplemental Nutrition Assistance Program: assists families with obtaining food (formerly known as food stamps)
SSID	State Student Identifier: a unique 10 digit number assigned to public school students
